

Plasma and secure storage unit

Electric Wharf situated in coventry is a dis-used former power station which has been converted into eco friendly apartments and live work units. The customer managed to get a last minute space at the Ideal Home exhibition at the NEC and with a short lead time of 7 days to create a stand and a very tight budget, we achieved what the client required on time and on budget.

3x3 Pop-Up displays and pull up banners used for speed Canalside Designer Living
