

Saphir 320/330 Series Grinder/Polishing Machines

Hardy. Practical.

The **Saphir 320 series** (single wheel) and **Saphir 330 series** (twin wheel) manual preparation machines are grinder/polishers built for heavy usage and high speed preparation.

Available in either 200mm (8") or 250mm (10") wheel variable speed formats, the Saphir 320/330 series can be tailored for any application.

A solid, welded aluminium plate housing provides stability and corrosion resistance with a powder coated surface.

All electrical components, spindles and moving parts are modular for easy cleaning and maintenance.

Saphir Grinding & Polishing Machines
